JUDGE
& JURY®

HARD DENIM
4 HARD TIME

DESIGNED IN THE SHADOWS OF STRANGWAYS
Quality As Charged

Judge & Jury denim is unique. The finest quality cotton used in our jeans is grown, nurtured and picked from our very own fields. The yarn is then twisted and coloured using Italian machinery and eco friendly dyes in our own factories. The result is a pair of jeans that are hand crafted with craftsmanship.

JUDGE & JURY

DISTURBING THE PEACE

A Manchester based breakout brand that knows its own mind just like the people who wear it. Our plan is to release tough-minded guys back onto the streets wearing stylish menswear "Crafted with Conviction", putting an end to a life sentence of mediocrity.

The verdict of Judge & Jury is freedom for those with a desire to throw away the uniform and scale the walls of convention. We offer a fresh start, a new razor sharp but gritty look - a daring escape from the confinement of institutionalised fashion.

Judge & Jury has the balls without the chains. Are you ready to make a run for it?

THE CHURCH OF THE ELVES FARM - STRANDAKIRKJA ICELAND

So cold it burns his lungs and numbs his etiolated skin. Off the road and into himself. He doesn't feel a thing, just wet denim jeans clinging as he makes for a farmhouse across the barren, basalt landscape, down moss-covered banks and through glass-still rivers of ice water.

It's empty, the windows are missing but there's a red tin roof and it's dry. Feels abandoned, feels right. A bastard bitter easterly whips through the door, pulls and scrapes at the tin above his head and catches the fire. He pares the dirt off his nails with a lock-knife as the denim dries on his legs.

The mist falls down the sheer black cliff outside, he lies his head on the bag. In his front pocket there are few coins, a Zippo, some skins, enough tobacco for the night and in his arse pocket a picture. He lights up...
